

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## STATE OF MAINE

PENOBSCOT, ss.

To W. A. Scott, a Constable of the Town of Lincoln, in said county,

### GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said town of Lincoln, qualified by law to vote in town affairs, to assemble at the Auditorium, in Lincoln Village, in said town, on Monday, March 15th, 1920, at 9 o'clock in the forenoon, to act on the following articles, to wit:

- Art. 1. To elect a Moderator to preside at said meeting.
- Art. 2. To elect a Town Clerk for the ensuing year.
- Art. 3. To elect three Selectmen for the ensuing year.
- Art. 4. To elect three Assessors for the ensuing year.
- Art. 5. To elect three Overseers of the Poor for the ensuing year.
- Art. 6. To elect a Town Treasurer for the ensuing year.
- Art. 7. To elect a member of the Superintending School Committee for the term of three years.
- Art. 8. To elect an Auditor of accounts for the ensuing year.
- Art. 9. To elect a Road Commissioner for the ensuing year.
- Art. 10. To elect all other necessary town officers for the ensuing year, except Collector of taxes.
- Art. 11. To see what sum of money the town will raise and grant for the support of common schools for the ensuing year.
- Art. 12. To see what sum of money the town will raise for the support of poor the ensuing year.
- Art. 13. To see what sum of money the town will raise for defraying town charges the ensuing year.

14300  
1500  
2500

4525 Art. 14. To see what sum of money the town will raise to pay town debts the ensuing year.

2650 Art. 15. To see what sum of money the town will raise to pay interest the ensuing year.

7009 Art. 16. To see what sum of money the town will raise for the repair of ways and bridges the ensuing year.

1300 Art. 17. To see what sum of money the town will raise for breaking roads the ensuing year.

732 Art. 18. To see what sum of money the town will raise for repairing State roads the ensuing year.

300 Art. 19. To see what sum of money the town will raise for repairing state aid roads the ensuing year.

Art. 20. To see what sum of money the town will raise for building and repairing side walks the ensuing year.

100 Art. 21. To see what sum of money the town will raise for sprinkling streets the ensuing year.

1500 Art. 22. To see what sum of money the town will raise to repair school houses the ensuing year.

600 Art. 23. To see what sum of money the town will raise to purchase school books the ensuing year.

450 Art. 24. To see what sum of money the town will raise for support of Library the ensuing year.

3300 Art. 25. To see what sum of money the town will raise for free high school the ensuing year, and determine how the same shall be expended.

100 Art. 26. To see what sum of money the town will raise for support of fire department the ensuing year.

200 Art. 27. To see what sum of money the town will raise for expense of fire companies the ensuing year.

75 Art. 28. To see what sum of money the town will raise for memorial day expenses the ensuing year.

1650 Art. 29. To see what sum of money the town will raise for street lighting the ensuing year.

2500 Art. 30. To see what sum of money the town will raise for hydrant rental the ensuing year.

732 Art. 31. To see what sum of money the town will raise for highway patrolman the ensuing year.

✓ Art. 32. To see if the town will vote "yes" or "no" on the question of raising and appropriating money necessary to entitle the town to State Aid, as provided in section 19 of chapter 25, Revised Statutes of 1916.

600 Art. 33. To see if the town will raise and appropriate the sum of six hundred dollars for the improvement of the section of the State Aid road as outlined in the report of the State highway commission, in addition to the amount regularly raised for the care of highways and bridges, the above amount being the maximum which the town is allowed to raise under the provisions of section 18, chapter 25, of Revised Statutes of 1916.

450 Art. 34. To see what sum of money the town will raise for salary of Superintendent of Schools the ensuing year.

100 Art. 35. To see what sum of money the town will raise for care and fencing cemeteries the ensuing year.

500 Art. 36. To see what sum of money the town will raise for the purchase of School supplies.

✓ Art. 37. To see if the Town will elect a collector of taxes, the ensuing year, fix his compensation, and determine the time and manner of his settlement with the town.

✓ Art. 38. To see if the town will vote to install more street lights, determine how many, and raise money for the same.

✓ Art. 39. To see if the town will vote to instruct the Selectmen to sell, and the Treasurer to deed, the so called Stetson House in Lincoln Village.

✓ Art. 40. To see if the town will vote to buy a Truck or a Tractor for use of the town, and raise money for the same.

✓ Art. 41. To see if the town will vote to employ a man as night-watchman the ensuing year, and raise money for the same.

✓ Art. 42. To see if the town will vote to make a temporary loan in anticipation of the collection of taxes the present year. fix the amount thereof, and elect an agent for the purpose.

✓ Art. 43. To see if the town will accept a list of Jurors, as made out by the Selectmen, Treasurer and Clerk.

✓ Art. 44. To see what sum of money the town will raise to grade the grounds at Ballard Hill School house.

2008 Art. 45. To see what sum of money the town will raise, for the purpose of re-building the road from the Military road, so called, at a point near the residence of Parker Fall, to the Rail-Road Station called South Lincoln. This distance is approximately  $1\frac{1}{2}$  miles.

Art. 46. To transact such other business as may come properly before the town.

Art. 47. To see if the town will vote to buy a road roller for use of the town, and raise money for the same.

---

The Selectmen hereby give notice that they will be in session at their office, in said Lincoln, on the 11th, 12th and 13th days of March, 1920, at 9 o'clock in the forenoon of each of said days, for the purpose of correcting the list of voters of said town.

Given under our hands at said Lincoln this 4th day of March, A. D., 1920.

C. A. BROWN,

E. A. LOWELL,

W. A. HANSCOM,

Selectmen of Lincoln, Me.

Selectmen of Lincoln.

## Annual Report of the Superintendent of Schools

*To the Honorable Members of the Superintending School Committee, Honorable Members of the Board of Selectmen, and Citizens of the Town of Lincoln:*

I have the honor of submitting herewith my second annual school report for the municipal year ending March first, nineteen hundred and twenty.

### CORPS OF TEACHERS

Our teaching force at the present time is as follows:

Richard Morgrave	Castine	Eastern S. N. S.	Principal	\$33.33
Caroline Allen	Col. Falls	Machias S. N. S.	Grade eight	18.00
Blanche Mallar	Machias	Machias S. N. S.	Grade seven	18.00
Ethel Fredland	Lincoln	Farmington S. N. S.	Grade six	18.00
Villa Whittier	Lincoln	Mattanawcook A.	Grade five	18.00
Ella Burr	Lincoln	Mattanawcook A.	Grade four	20.00
Sadie Adams	Lincoln	Mattanawcook A.	Grade three	18.00
Jessie Clay	Lincoln	Eastern S. N. S.	Grade two	18.00
Adelaide McEacharn	Machias	Machias S. N. S.	Grade one	18.00
Alice Howland	Danforth	Farmington S. N. S.	Gram. grades S. L.	19.00
Keith Weymouth	Belfast	Belfast H. S.	North Lincoln	19.00
Dorene Roberts	S. Lincoln	Mattanawcook A.	Prim. grades S. L.	16.00
Harriett Corro	Lincoln	Mattanawcook A.	Lincoln Center	15.00
Edna Rannels	Lincoln	Mattanawcook A. 1920	Hersey Dist.	14.00
Edna Kneeland	Lincoln	Mattanawcook A.	Frost School	14.00
Helena Kneeland	Lincoln	Mattanawcook A.	East Lincoln	13.00
Myra Hurd	Lincoln	Mattanawcook A.	Transalpine	13.00

There have been only two changes in our teaching force since the opening of the Fall term. Miss Nannie Warren who was teaching the Hersey school and Miss Sibyl Weymouth who was teaching the grammar school in South Lincoln both accepted positions in Connecticut for a larger salary than we could pay. We have added to our teaching force four teachers, making now seventeen teachers in all, nine in the village schools and eight in the rural schools. In South Lincoln we had to divide the school as the number of grades and the number of children caused more work than one teacher can handle. Miss Roberts of South Lincoln was put in charge of the primary school comprising the first four grades. Then at the beginning of the Winter term when the new building was occupied, and after the assignments of teachers to the several grades had been made at least for the time being, three new teachers were added—Miss Allen, Miss Mallar, and Miss McEacharn, all three graduates of the State Normal School at Machias, and teachers of experience.

### ENROLLMENT

For the enrollment of the village schools see the principal's report printed elsewhere. The number enrolled in the rural schools is as follows: North Lincoln, 24, Hersey School 16, Lincoln Center 25, Frost 12, East Lincoln 11, Transalpine 7, South Lincoln Grammar 22, South Lincoln Primary 18. The attendance on the whole has been much better than last year no doubt owing largely to the better health of the community in general. We have thus far been free from epidemics. An enforced closing of the schools always is very detrimental to the attendance and the work. The tendency to close the schools hastily when sickness begins to appear ought to be largely removed now that our overcrowded condition has been done away with.

## ENTRY INTO THE NEW GRAMMAR SCHOOL BUILDING

With the entering into the new building on the 19th of January, a long-wished for day arrived. We are now working on a strictly graded system, one grade in a room with none of the grades too large for one teacher, except perhaps the primary school which has an enrollment of about 50. There is a possibility that the first grade next year with those that are retarded from the first grade this year may be much larger than at present so that an extra teacher has to be engaged. This will not be done unless it is absolutely necessary, of course. In case this will have to be done we shall have two primary teachers, and that will leave only two vacant rooms in the new building. This goes to show that the townspeople did wisely last March when they voted to build a new 8-room building, as with the prospect of growth of the town before us, the time may not be far distant when all available schoolrooms will be occupied. It should be said in this connection that the wages for a possible extra teacher that may be needed next year has not been reckoned in our common school budget of expense as given elsewhere. The new building is in almost every respect a model school building, built by honest workmanship. Much credit is due to the builders and contractors who have taken a personal interest in it.

### ESTIMATE OF COMMON SCHOOL EXPENSE FOR THE ENSUING FISCAL YEAR

Amount needed for the sixteen weeks, from the close of the present fiscal year to the end of the Spring term:	
16 weeks conveyance at \$39.00 per week	\$624.00
Amt. due on conveyance to date . . . . .	48.00
16 weeks janitor work, at \$45.00, (2 jant.)	720.00
16 weeks teachers' wages at \$302.50 (17 teachers) . . . . .	4,840.00
<hr/>	
Total amount necessary to carry us through till end of Spring term . . .	\$6,232.00

For the twenty weeks from the opening of  
the Fall term in September till the  
close of the fiscal year:

22 weeks janitor work at \$50.00 per week	\$1,100.00	
3 carloads coal, one for the old building and two for the new, at \$600. . . . .	1,800.00	
Amount necessary for cord wood . . . . .	500.00	
20 weeks conveyance at \$40.00 per week	800.00	
20 weeks teaching, (17 teachers) at \$369.05 per week, which is based on a 22 per cent increase on the average	7,381.00	
	<hr/>	\$11,581.00
Estimate of total expenditures for next year . . . . .		\$17,813.00
Estimated amount from state funds and invested funds based on this year's resources about . . . . .	\$4,300.00	\$ 4,300.00
		<hr/>
Amount to be raised by town . . . . .		\$13,513.00

### RECOMMENDATIONS FOR NEXT YEAR

It will be noticed from the foregoing outline of common school expenses that we shall need double the amount that we called for last year. There are several factors that contribute to this large increase as may be readily seen by any one who will carefully and candidly consider the several items. No doubt most of the voters and citizens know what these factors are, but in order that you may not overlook them, I would point out the outstanding features. First, as to *janitor work*, our bill will be more than doubled. The new building as well as the old calls for the services of a competent and reliable man, and to get such a man you have to pay a man's wages. We are now paying \$25.00 per week in the new building and \$20.00 in the old. Here we have an increase of 125 per cent in expense over that of last year. I can speak very highly of the services of the two

men now employed, Mr. J. Corro, janitor in the Primary School and Mr. Lindsay, janitor in the Grammar school. Where the town has from fifty to sixty thousand dollars invested in property and where so many children are housed during the greater part of the year it is of the utmost importance that reliable and competent service be maintained. In the second place our fuel bill is increased very materially. We shall need at least one carload of coal for each of the two village buildings, and as it is very doubtful whether one carload will suffice to take us through the winter in the new building it is but the part of wisdom to put a second load into the bin so we shall have it when we need it. I strongly favor buying this extra carload although this will bring our coal bill well up to \$1800. reckoning each carload on an average at six hundred dollars. Then we shall need approximately \$500. for cord wood most of it for the rural schools and a few cords for the village. *Transportation* of pupils I have placed at \$40.00 per week. This is a low figure as we are paying \$38.50 per week at the present time. Now as to *teacher's wages*, your attention is directed to these facts; that your rural teachers are being paid only starvation wages; that there has been an increase of about 30 per cent in the number of teachers as each of the village teachers, until the time that we moved into the new building, was doing the work, or rather, was expected to do the work of about two teachers; and that the price of board in our community is quite high, eight dollars per week, though some are paying more, and desirable boarding-places hard to find at that. Further, since many schools are closed throughout the country because of lack of teachers this year and also since there has been a falling off in the number of young women fitting themselves for the profession according to federal statistics, it will be necessary to raise wages at the close of this year in order to retain our competent teachers and in order to hire competent teachers to take the place of any who may resign. I have reckoned on an average increase of 22 per cent. This will raise the wages of the rural teachers on an average to \$18.75 per week and that of the village teachers to \$22.00..

While it will not be necessary to pay that amount in each instance, in other instances it will be necessary to pay more. When I assumed charge of the office as superintendent of schools two years ago you were paying your village teachers \$13. per week which was the pre-war wages. Since then the cost of living has gone up 100 per cent or more. Had the wages of your teachers been increased *pari passu* you would now be paying them \$26. per week. Several towns are accordingly paying a salary of twenty-five dollars to their village teachers. I feel therefore that in asking for a 22 per cent increase over what we are now paying is asking for the minimum to maintain efficiency of service.

Now as to repairs. As has been pointed out before nearly all our school building are sorely in need of being painted. I would recommend that the houses at the Center and at North Lincoln be each given two coats of paint. They should be painted as nearly as possible the same color as that of the village buildings. A covered platform or porch should be put in front of the North Lincoln building. There is no platform there now. A cement floor should be put into the north half of the primary school. Many minor repairs come in under this account so that we shall need fifteen hundred for repairs. For supplies we need \$500. This includes the price of arithmetic paper, which has increased from five to eight cents a pound. In case the town wishes to have the school department to discontinue supplying the schools with arithmetic paper \$350. will suffice for this account. The following amounts for school expenses are recommended for the ensuing fiscal year:

Common Schools (which includes teachers' wages, fuel, janitor work, and transportation of pupils).....	\$13,600.00
Repairs of Schoolhouses .....	1,500.00
Text Books .....	600.00
Supplies .....	500.00
Insurance on School Buildings .....	200.00

Sooner or later the grounds about the new grammar school will need to be put into shape. If the townspeople wish to have this done during the coming year this should be borne in mind when raising the appropriation for repairs.

Respectfully submitted,

S. M. NIEVEEN,

Superintendent of Schools,  
Town of Lincoln.

Lincoln, Maine, February 26, 1920.

## REPORT ON VILLAGE SCHOOLS

Lincoln, Maine, Feb. 27, 1920.

*To the Superintendent of Schools:—*

In accordance with your request I herewith submit a report of the condition and progress of the graded town schools of Lincoln.

Last fall conditions were so that anything like efficient work could not be accomplished by either teachers or pupils. Thanks to the splendid school on the hill these conditions of congestion are entirely remedied. Since moving to the new building early in January, 1920, the new conditions have made immediate changes for the better, namely:

1. More time per individual. Each teacher now has a larger percentage of her time to devote to personal supervision of the pupil and can thus become better acquainted with their individual differences. Thus by constructive criticism, wrong habits of study may be checked at their inception, and the pupils be led to an efficient use of their time.

2. Closer following of the course of study. The second change for the better, is a close following of the new state course of study. The state department of education has recently issued a new course of study which is being universally adopted by the towns of Maine. This makes it possible for a pupil to transfer from one school system to another without interfering with either the progress of the pupil or the routine of the school.

3. Addition of new subjects. We are now able to add the new subjects of sewing, manual training and cooking as soon as funds are available. Sewing has already been introduced into the fifth, sixth, and ninth grades and will be introduced into the seventh and eighth grades as soon as practicable. We must realize that local industrial conditions tend to make the graduation from the grammar grades the final educational goal of many

pupils. Since this is so, we must prepare them as thoroughly as possible to prepare them to realize their possibilities and to make a success of living. To this end of self-realization we must introduce as many of the pre-vocational subjects like sewing, manual training and cooking as soon as possible.

4. Grouping of pupils by ages. This new method of having the first four grades in one building has many obvious advantages. First, it allows the smaller children the use of the fine playground apparatus which has been provided on the grounds of the old grammar school. Secondly, the younger pupils have ample room for their games, without the crowding which existed when we had over three hundred pupils in the old building.

These are but a few of the advantages which we are beginning to realize from the new scheme of things and which will become more evident as time goes on.

We now have an attendance of 310 pupils in the village grammar and primary schools, distributed as shown by the following chart:

Teacher	Grade	No. of Pupils Registered	Average Attendance	Average read in per cent
Miss McEacharn.....	I	45	31	68.9
Mrs. Clay.....	II	44	37	84.1
Miss Adams.....	III	29	24	82.9
Mrs. Burr, Principal.....	IV	26	25	96.2
Mrs. Whittier.....	V	36	34	95.8
Mrs. Fredland.....	VI	31	29	93.0
Miss Mallar.....	VII	33	30	90.9
Miss Allen.....	VIII	39	35	90.6
Mr. Morgrage, Principal....	IX	27	25	92.5
Totals.....		310	270	87.1

The principal desires to express his appreciation of the hearty co-operation which has been given him by the efficient corps of teachers of the Lincoln schools. Too much cannot be said of the loyal work of the janitors, who have been at the buildings early and late to insure the best possible heating and sanitary arrangements. The principal also desires to thank the school committee for its prompt assistance and loyal co-operation in all matters pertaining to the best interests of the schools. It is very much to be regretted that the parents and friends of the schools do not visit the schools regularly, see the routine work of the schools and get more in touch with the school work. In this way, and in this way only, can the school and the community come into that perfect co-ordination which makes for the best educational interests of our town.

Respectfully submitted,

RICHARD J. MORGRAGE,

Principal Village Schools.

Feb. 27, 1920.

## Report of Principal of Mattanawcook Academy

Lincoln, Maine, Feb. 20, 1920.

*To the Trustees of Mattanawcook Academy and S. S. Committee:—*

Gentlemen:—It gives me pleasure to submit to you the report of Mattanawcook Academy for the year 1919-20.

The teachers for the year have been: Hoyt D. Foster, B. P., principal; assistants, Susan M. Kendrick, A. B., Evelyn A. Richards, graduate Castine Normal School. We were pleased to have Miss Kendrick again with us and under the trying conditions were able to retain our present faculty by a slight increase in salaries.

### ATTENDANCE

The registration for the year is sixty-nine an increase of five over last year. Of this number eight are tuition students. I wish to thank the parents in cooperating with me in maintaining our high standard of attendance as this has enabled us to have an average of over sixty thus entitling us to full state aid.

### PROGRESS

The work accomplished thus far has been very gratifying to the teachers, and we trust to the student and to the parent or guardian. Much credit is due the Freshman class for their loyalty and initiative with which they have tried to accomplish the prescribed work.

After consultation of the Trustees and teachers the usual study period of 7.30-9.30 P. M. was changed to an hour of supervised study from 3.30-4.30 whereby those who were de-

ficient in any subject could get special help and at the same time not to inconvenience the parent by holding to the usual strict study period.

We want to graduate every boy and girl who enters the institution and will do all in our power to assist them and ask the hearty cooperation of student and parent. "As is our schools so will our future town be."

### LIBRARY

Many books have been added to the library and more have been ordered. A library is a great asset to any school and at the present rate of new additions we shall have several hundred volumes. If any of our books should interest the citizens of the town we should be pleased to lend them.

### SALARIES

Owing to the H. C. L. and shortage of teachers it will be necessary to increase the salaries of the teachers the coming year. A large number of school officials have made increases in salaries during the year but your faculty has not asked for an increase above the contracted amount. You should consider the experience of the teacher as experienced teachers are in great demand and the supply very limited as per the report of Mr. Taylor of the state department. The present faculty consists of experienced teachers each holding a professional certificate, the highest issued by the state, and they would be pleased to serve you for another year provided an increase is granted.

### GRADUATING CLASS

The graduating class this year consists of six boys and six girls which number is not quite as large as last, but the percentage of boys being much higher, which is very gratifying in that it shows our boys are aware of the fact that a high school educa-

tion, at least, is necessary before launching upon the sea of life.

Instead of the regular graduating exercises a pageant is to be given. This is something new for us but promises to be very attractive.

In closing I wish to thank you, the teachers, the students, the parents, and general public for your loyalty and kind assistance you have rendered.

Respectfully submitted,

HOYT D. FOSTER.
